

Silwan Al-Eryani

Full Stack Developer

Profile

A full stack developer with hands-on experience in using new technologies to build web applications, 2 years of experience in WordPress sites. More than 5 years' experience in graphic designing with Adobe package. Administration skills including MS Suite, client services, problem solving and scheduling of meetings.

I am passionate about web development and programming because I love to make clients visions for web applications come to life. Recently completed a Full Stack developer bootcamp. Excellent ability to learn new technologies and tools. Eager to build my professional experience and apply recent knowledge.
